TUESDAY, MARCH 14 1738.

No. 848.

Yesterday arrived a Mail from Holland, with the following Extract of a Letter from Leghorn, dated the 20th ult. O. S.

FRENCH Captain who came from Bastia Yesterday at Noon is just arrived here, and reports, that about 8 o'Clock in the Forenoon, as the Marquis Pazinto de Paolis, Prime Minister and General of Baron Theodore, was going with a Parish Priest, and his most Christian Majesty's safe Conduct, to the General the Count de Boisseux, to lay the Grievances of the Corsicans before him, and to acquaint him of their Resolution to maintain their Engagements with Lord Theodore, they were attacked just without the Walls of Bastia by an Out Guard of 100 Genoese, who fired upon them, kill'd the General de Paolis on the Spot, and mortally wounded the Parson, who however made a Shift to get back to the Corsicans Camp. The Captain adds, that when the Count de Boisseux was inform'd of this Affair he demanded Satisfaction, and then dispatch'd an Express to his Court.

The Letters from Florence say, that Quarrels happen frequently between the Officers of Tuscany and Lorraine, and that several Tuscan Families of Distinction are very much disgusted by a late Edict, which deprives them of the Privilege they had of granting Leave to any private Persons of using Swords, Bayonets, Pikes, and Fire Arms.

An Affair has happened in the Town of Bastia, which makes a very great Noise, and is thus related at Leghorn, viz. An Officer of the French Troops having a Quarrel with two Genoese Officers, the latter assassinated him, and then fled for Refuge, one to a Convent, and the other to a Church. They say, that the Count de Boisseux being inform'd of it, caused them both to be dragg'd out of their Sanctuaries, and to be put to Death: They add, that the Marquis de Mari complains, that this Execution was perform'd without giving him any previous Notice of it.

The Letters of the 25th ult. from Vienna say, that the Count de Seckendorff has undergone two more Examinations at his own House, by the Committee, and that they have now finished their Inquiry, which the Secretary is drawing up in order to be reported to the Emperor. The true State of his Affair is not made publick; but 'tis almost generally reported, that it will soon turn out in his Favour.

The House where the States of Lower Austria held their annual Meeting, has been broke open and robbed of a considerable Sum of Money, which was set apart towards defraying the Expences of the present War against the Turks. Several Persons are apprehended on Suspicion.

The Archbishop of Vienna has made Proclamation of an universal Jubilee for a Fortnight, granted by the Pope, to commence on the 16th, and end on the 30th of this Month, which according to the New Style, is Palm Sunday. The Godly are thereby injunction'd, during this Term, to visit all the Churches of Vienna, or at least one of the three Parish Churches of St. Stephen, St. Michael, and St. Mary of the Scots, to beg of God to continue the Peace among the Christian Princes, and to implore the Divine Blessing upon the Imperial Arms, and the Extirpation of Heresies, especially that of the Turks. They are likewise enjoined by the Bull to give Alms, to fast every Wednesday, Friday, and Saturday, to make a sincere Confession of all their Sins, and to receive the Communion on the Sunday following with a lively Repentance; for which end, the Confessors are authorised to grant a full Absolution from all Sins, and a Dispensation from all Vows, of what Nature soever, except those of Religion and Chastity.

The Imperial Court having received Advice, that the Inhabitants of Imperial Croatia begin again to be very tumultuous, and refuse to conform to some late Regulations made for the good Order and Tranquillity of the Province, have sent for the Count d'Esterhasi, who is the Ban or Governor General of that Country, to let him know, that if the Croats

don't return to their Duty of their own Accord, the Emperor will be obliged to treat them with less Indulgence than he has done hitherto: And 'tis actually believed, that if a Calm be not speedily restored in that Country, the Court will send Troops thither to reduce the Mutineers by Force of Arms, and to punish the Ringleaders with exemplary Severity.

The Emperor has approved of a Project, by virtue of which every Battalion is for the future to have a certain Number of Mules to carry the Soldiers Cartridges, the Custom hitherto of carrying them in Carts being found to be inconvenient on Landry Accounts, and particularly because in an Engagement the Carts can't always keep up with the Troops. According to this same Project, every Company is to have a Number of Rugs distributed, 2 or 3 to every Lodging Room, because it has been observed that the cold Weather during the Nights in Hungary, is the Cause of the Distempers that are so common to the Armies of that Country.

General Suckow is set out for Belgrade, by Order of the Council of War at Vienna, to see the Sentence executed upon General Doxat, and the Officers concerned in the Surrender of Nizza. In pursuance of this Sentence, the Commission Officers of that Garrison are broke with Infamy, the Captains without Infamy, and with Hopes of being established; but they are all ordered to be present at the General's Execution. 'Tis remarkable, that the above-nam'd General Suckow had not been gone long, but he was followed by an Express dispatched from the Council of War, who some think carries with him some Mitigation of their Sentence. The Charges of this Process rise to 20,000 Florins, and must be paid by the Criminals.

The Vienna Intelligence adds, that 'tis now a Matter beyond all Doubt, that the Prisoner brought thither from Moravia (as mentioned in our last) is a Captain who had the Confidence of the Count de Seckendorff, and who absconded, upon Advice of the Count's being arrested on his Arrival at Vienna, but was discovered and apprehended in Moravia, and from thence brought to Vienna to be confronted with the Count de Seckendorff, about certain Articles that don't relate to the Command of the Army.

According to an Account publish'd at the Toll Office, where they pay the Duties laid upon Provisions, there were consumed last Year in Vienna, 25747 foreign Beefs, and 1126 of the Country, 44 Cows, 51224 Calves, 43955 Sheep, 129687 Lambs, 13682 Porkers, 33033 Pigs, 21234 young Wild Boars, 9759 Gallons of foreign Wines, 425675 of Austrian Wines, and 206546 of Beer.

They write from Berlin, that the King of Prussia has issued an Order, that no Candidates for the Ministry shall be admitted Pastors of Churches till they are 25 Years of Age.

Letters from the Hague of the 11th O. S. say, that the Ketel, one of the Dutch East India Company's Ships that sailed a Year ago from the Texel for Ceylon, put in at St. Thomas on the Coast of Guiney in the Month of August last, after having lost 128 Men in her Passage.

## IRELAND.

Dublin, March 4. On Tuesday last one George Ennis, a Constable, was try'd and convicted, in his Majesty's Court of King's-Bench, at the Commission of Oyer and Terminer, for the Murder of William Davison, a Pewterer, in an Ale-house in Charles-street, the 20th of December last, by cutting and stabbing him with a Cutteau, of which Wounds he instantly died.

On Thursday one John Campbell, a Chairman, was tried at the same Place, and by the said Commission, for committing a Rape on a young Woman, he met at Night some time ago, and promised to carry her in his Chair to her Lodgings, but he and his Accomplice carry'd her to the Lots at the North Wall, and there perpetrated their Villainy, of which he was convicted. And,

Likewise one Patrick Kennedy was convicted of returning from Transportation.

The same Night Anderson Saunders, Esq; was married to Miss Wynne, a Daughter of Col. Wynne, a young Lady of great Merit, Beauty and Fortune.

Last Night died the Rev. Dr. Nary, a very eminent Romish Clergyman, in the 79th Year of his Age. Stephen Moore, Esq; is elected Knight of the Shire for Tipperary.

## SCOTLAND.

Edinburgh, March 7. Last Week a Grenadier of General Whetham's Regiment having been once and again whipt for selling his Regimental, was brought out to suffer the last Part of his Punishment; but the Cat with her 9 Claws having already so scratched his Back, that it could indeed bear no more, he was tied upon one of the Cannon of the Castle, his Breeches pull'd down, and flogged. He begged they would treat him as a Grenadier, and not like a School-boy. However, when the Whipping was over, he told them, as they had whipped his B—h, they might also kill it.

Letters in Town give Account, that a valuable Ship belonging to the Danish East-India Company, was wreck'd on the Coast of Flerar, one of the Islands of Zeland, about the Middle of December last. Her Loading seems to have consisted in Silver coined, and uncoined, and is judged to be worth 60,000l. Sterling. There is already 45 Bars of Silver of about 80 lb. each, several other lesser ones which have not the Number, and a great deal of coined Money, in all to the Value of 8000l. Sterling, recovered by Capt. Irvine and the Inhabitants, who have Hopes of gaining the rest in Summer, by diving Machines. By the Mate's Book it appears the Crew consisted of 150. The Seas run so high, that a great Number of the Men were tossed upon the Clefts of a very high Rock, some of whom had Life enough to crawl to the Summit of it, but soon after died, whose Carcasses were eat up by the Ravens. One of the Crew was got with his Cloaths on, and his Pipe and Tobacco-box in his Hand. Much about the same time a Ship from Archangel, laden with Tea and other Commodities of that Country, run the same Fate on the Coast of that Island, and not one of either of the Crews were saved.

For the immediate Cure of BARRENNESS in  
WOMEN, tho' of many Years Continuance, and pro-  
ceeding from what Cause soever,

And also of  
IMPOTENCY in MEN, however occasion'd, or of ever  
so long Standing,

The Famous and Inestimable  
PROLIFICK ELIXIR,  
The highest, richest and most powerful Cordial in Nature,  
is recommended,

BEING the only true and infallible Cure  
for BARRENNESS in Women and IMPOTENCY in Men in  
the Universe, and which it at once accomplishes without the  
least Trouble, even after all other Remedies have fail'd, as  
Thousands have experienced, and that by promoting the chear-  
ful Circumference of the Blood and Juices, raising all the Fluids  
from their languid, deprifed State, to one more florid and  
sparkling, opening all Obstructions, fortifying the Nerves,  
energizing the Animal Spirits, restoring a Juvenile Bloom,  
and evidently replenishing the crisper Fibres of the whole  
Habit, with a generous Warmth and balmy Moisture, and  
thereby invigorating it to such a Degree as not to be imagin'd,  
but by those who have experienced how exceedingly and sensi-  
bly it renovates, recruits, and powerfully strengthens all the  
Animal Faculties, and Generative Powers in both Sexes. It  
inforces a bright, lively Disposition, banishes Melancholy, and  
Inspires Mirth and Gladness of Heart beyond Expression. A  
abundance of Ladies, who for several Years were deemed ine-  
vitably Barren, have after twice taking it, conceived and be-  
come Fruitful; and great Numbers of Gentlemen, who by  
fast living, or otherwise, had render'd themselves incapable of  
Procreation, have soon been enabled by it to propagate their  
Species, informeth, that very many illustrious Families, who,  
for want of Children, were almost inconsolable, are now blest  
with happy Issue, and are (under Providence) indebted to this  
Great Medicine for their Heirs. It rectifies all Disorders of  
the Stomach, creates an Appetite, procures a good Digestion,  
and in all Weaknesses of Body, or Decay of Constitution of any  
Kind, is a most infallible Restorative, and even keeps back  
the Effects of Old Age itself. It is to be taken but a few  
Drops at a Time, has a very fine Flavour, is pleasant to the  
Palate, cordial to the Stomach, and can be had only at the  
Two Blue Posts in Haydon-Yard in the Minories, at 5s. a
